Students:

Procedure Cards:

You will be learning many basic skills during this school year. There will be an extremely large amount of information covered during class.

Because there is always a “right” and “not so right” way of performing a skill, it is very important that we learn and practice the “right” procedures.

Our client is our first concern. They trust their safety to us. Therefore, it is imperative that we know our “stuff”.

As part of your assignment grade, you will be developing procedure cards for every skill you learn. The procedures are written on index cards, and may be used as any easy reference once you begin working with clients. This insures that you always have the correct information at hand.

This will not only create efficiency and client trust, it will also keep your client safe.

Procedures will be discussed for every new skill that is introduced. You will either receive it in written form, or use your textbook for compiling them yourself.

They will be turned in to me during the school year. I will post due dates on the board.

Thank you,

Ms. Vicki Brown-Sigvartson
